

ASK THE ADVISORS

What fears must churches combat in order to have successful building projects?

FEAR OF RESURRECTION

Acting in faith changes lives

After Easter, the disciples were afraid because they knew that they would carry Jesus's mantle and do what he did - heal the sick, raise the dead, & set people free.

FEAR OF CHANGE

We like what we are familiar with

Once we confess that new things are hard, we can move on to the fundamental question of: "God, where are you calling us to go and what are you calling us to do?"

FEAR OF INSUFFICIENT FUNDS

Resources come with faith

5,000 were fed only when they divvied up what they had & sent it out to the masses. The disciples offered what they had, with an assist from a boy, & Jesus did the rest.

FEAR OF ANGERING SOMEONE

People will act out of their fear

But we cannot allow a few people who are afraid to stop the movement of the Holy Spirit and the advance of the gospel.
